

To build a career in an IT-related role by applying foundational skills in troubleshooting, documentation, and quality assurance, with a strong commitment to learning and growing through practical, hands-on experience.

WORK EXPERIENCE

Information Technology Intern

June – July 2025

Jobtrendz Digital Marketing Solutions

UI/UX • Web Development • Graphics • Media • Technical Support

- Designed and prototyped website interfaces in Figma, including dashboards, member directories, login pages, and profile modals. Improved layout structure, navigation flow, and overall user experience.
- Created graphic design materials for organizational events, including tickets, staff IDs, posters, banners, and promotional assets.
- Collaborated with the media team on photoshoots, video shoots, and interviews for event documentation and content creation.
- Provided technical support during events, including Zoom meeting management and camera setup.
- Assisted in website content updates using WordPress and Elementor.
- Conducted QA testing on the Members Directory system to ensure functionality, usability, and design consistency.
